Dear Mr. Page:

I am pleased to submit to you the Department of Fisheries and Oceans Canada 2010-11 Integrated Business and Human Resources plans.

This plan describes the key human resources and business challenges we may face over the next twelve months and our strategies for addressing them. In doing so, it highlights both the gaps we need to fill and our employees' commitment to meeting those challenges.

My office will be pleased to provide you with further assistance should you or your office require it.

Yours sincerely,
