

OFFICE OF THE PARLIAMENTARY BUDGET OFFICER
BUREAU DU DIRECTEUR PARLEMENTAIRE DU BUDGET

November 19th, 2024

The Honourable Steven Guilbeault
Minister of Environment and Climate Change
Environment and Climate Change Canada
200 Sacré-Coeur Boulevard,
Gatineau QC K1A 0H3

ec.ministre-minister.ec@canada.ca

Information Request: IR0807

Dear Minister Guilbeault:

As you are likely aware, the Parliamentary Budget Officer (PBO) provides independent and non-partisan analysis to the Senate and to the House of Commons about matters related to the nation's finances and the economy, the estimates, certain other government documents, and the cost of proposals. In carrying out my mandate, I often require information held by government departments and Crown corporations and I am entitled to free and timely access – subject to limited exceptions – to such information under section 79.4 of the *Parliament of Canada Act*.

I am currently undertaking an analysis pursuant to paragraph 79.2(1)(b) of the *Parliament of Canada Act*, which mandates the PBO to prepare reports on matters of particular significance relating to the nation's finances or economy that are listed in an annual work plan.

For this analysis, I am requesting the following annual historical and projection data for the upstream oil and gas subsectors, including liquefied natural gas (LNG) facilities for the period 2005 to 2032, classified using EC-PRO:

- Production Levels: Including energy production (in petajoules per year), oil production (in thousand barrels per day), and natural gas production (in billion cubic feet per day).
- Gross Value Added (GVA): GDP contributions.
- Greenhouse Gas (GHG) Emissions: Emissions data, broken down by gas type—carbon dioxide (CO₂), methane (CH₄), and nitrous oxide (N₂O).

The requested data should align with the information presented in [the Regulatory Impact Analysis Statement \(RIAS\)](#) for the following scenarios:

- Baseline Scenario: Reflecting federal, provincial, and territorial policies and measures in place as of August 2023, along with the proposed methane regulations.
- Regulatory Scenario: An extension of the baseline scenario that includes proposed regulations to cap GHG emissions from the oil and gas sector.

In order to provide the analysis to parliamentarians in a timely manner, I ask the information to be provided to my office no later than **December 4th, 2024**. If access to the requested information cannot be granted by that date, a response must be provided by you or your deputy minister as soon as possible.

Should you or your staff have any questions about this information request, the analyst responsible, Nasreddine Ammar can be contacted directly at Nasreddine.Ammar@parl.gc.ca, 613-617-7519.

Attached is a reply form. It too should be filled out and returned by December 4th, 2024, whether or not you provide access to the requested information. Should you refuse to provide access to the requested information, you or your deputy minister must provide a written justification for the refusal as required under section 79.41 of the *Parliament of Canada Act*.

The response letter will be posted on the PBO website and, therefore, it should not be marked "confidential". As well, the requested information should be attached separately. If this information is confidential, please clearly mark it as such, either on the electronic spreadsheet or the hard copy version.

Providing timely and effective analysis to the Senate and House of Commons and promoting greater budget transparency and accountability are the PBO's primary objectives. The degree to which this is possible depends, to a large extent, on free and timely access to quality information held by government departments. In doing so, you are assisting us in better serving the Senate, the House of Commons, and their members.

Yours Sincerely,

Yves Giroux

Parliamentary Budget Officer

c.c.: Mathew Sajkunovic, Privy Council Office, Assistant Secretary to the Cabinet, Liaison Secretariat for Macroeconomic Policy

Jean-François Tremblay, Deputy Minister, Environment and Climate Change Canada
