Re: PBO Information Request IR0123-A: Cost of implementing a new estimates reporting and control model

Dear Ms. Baltacıoğlu:

Thank you for your response to our information request regarding the cost of implementing a new estimates and reporting control model. The response provided a cost estimate and high-level project plan but did not provide the underlying data.

As mentioned in my previous letter, in order to respond to the parliamentarian's request, my office requires the data and assumptions upon which this cost estimate is based. This would include the survey responses.

Thank you for your attention to this matter. Please do not hesitate to contact my staff if any clarification is required.

Yours truly,
