Mr. Jean-Denis Fréchette
Parliamentary Budget Officer
Library of Parliament
Ottawa ON K1A 0A9

Dear Mr. Fréchette,

I am writing in response to your 25 October 2016 request for a “list of new infrastructure projects to be funded by the department as part of the Revitalization of Federal Infrastructure envelope, with the \$227,212,000 in incremental funding obtained via Budget 2016 Infrastructure Spending” (IR0264)

Please find enclosed our list of 66 projects funded by the Revitalization of Federal Infrastructure envelope. Defence projects are identified under two Budget themes:

- Accelerate the assessment and remediation of contaminated sites; and
- Revitalizing Federal Public Infrastructure.

With regards to *Approved Date, Construction Start Date, Construction End Date* (columns K, L, M), data is based primarily on project submissions received thus far, or, in cases where the submission is still in development, the anticipated timeline. It is important to note that different factors can affect project timelines, for example, weather conditions in outdoor construction and the availability of qualified contractors.

I note that the incremental funding figure quoted in your letter, \$227,212,000, does not correspond with the amount received by the Department of National Defence which has received Treasury Board approval for projects totalling approximately \$265 million, funded through \$200.5 million of infrastructure spending announced in Budget 2016 and \$64.6 million for 11 projects related to contaminated sites.

I look forward to continue working with you.

Sincerely,

John Forster

Enclosure: (1)
