

AUG 06 2019

Mr. Yves Giroux
Parliamentary Budget Officer
99 Bank Street, 9th Floor
Ottawa ON K1A 0A9

Dear Mr. Giroux:

Thank you for your letter of June 21, 2019, and attachments, regarding your Information Request IR0426.

As you requested, please find enclosed the completed reply form, as well as Canada's GHG, CO₂, CH₄ and N₂O emission projections for the Technology Case scenario for years 2016 to 2030. While the 2019 National Inventory Report was published in April 2019, the enclosed 2016 historical emissions data and the 2017 to 2030 projections data are based on the 2018 National Inventory Report. Please note that these sector-level and by gas values have never been released to the public and the Parliamentary Budget Office should treat them as confidential. Should your office decide to make them public, Statistics Canada would need to review the datasets for potential confidentiality concerns and approve their release.

Enclosed is an Excel file with four sheets presenting emissions by gas (GHG, CO₂, CH₄ and N₂O) for the Technology Case presented in *2018 – Canada's Greenhouse Gas and Air Pollutant Emissions Projections*.

As for emissions under the other two scenarios (the Reference and Additional Measures cases), please note that these have been provided to you previously in response to Information Request IR0421. I should point out that the confidentiality issues identified at the time those data sets were submitted to you continue to apply.

Should you require further clarification, please contact my Deputy Minister's Chief of Staff, Ms. Belinda White, at belinda.white@canada.ca or 819-938-9207.

.../2

I trust that this information is helpful. Please accept my best regards.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C McKenna', with a long horizontal flourish extending to the right.

The Honourable Catherine McKenna, P.C., M.P.
